## RELEVANT SKILLS

- Modern framework web development.
- Client relations.
- Headless CMS integration.

## LANGUAGE SKILLS

- Spanish - Native
- English - Fluent

## ABOUT

I'm a Web Developer with a background in Chemical Engineering. I have experience developing e-commerce and web solutions, mainly centered around the LAMP Stack and the WordPress ecosystem.

I have experience working in JavaScript, HTML, CSS, and PHP. I'm familiar with the WordPress API's, Theme and Plugin Development, and also the WYSIWYG Editors, in particular, Elementor Pro and other low-code solutions.

More recently I've been working on the MERN Stack, and have acquired experience working with React.js, Next.js, MongoDB and Node. I'm familiar with MERN Linux deployments and SaaS focused SSR Next.js Projects on cloud infrastructure.

In previous roles, I have managed personnel, inventory and logistics, as well as shipping, receiving, and supply chain with overseas vendors.

I'm fluent in Spanish and English, and enjoy above all feeling challenged and learning new things.

## EDUCATION HISTORY

### Web Development
